Subject: Explo: DOD Explosives Safety Board (ESB) to visit site May 6-9

On May 6-9, the DOD ESB will conduct a safety assessment of the 130,000 lbs of Tritonal/TNT mixture stored at EXPLO Systems. The assessment is being conducted in response to a request by LANG and LSP. The EPA OSC will attend the safety assessment to collect any information pertinent to the removal of the Tritonal mixture at the site.

(note: clarification to earlier email. CSB is not going to Explo next week.)
